

Association de Médecine Légale
et Toxicologie Clinique de Montpellier

Thursday sept 3rd 2015

Speaker : Prof. Fabrice DEDOUIT, MD, PhD, Radiologist and Forensic Pathologist, University Hospital of Toulouse, France

9h00- 9h30: Radiology: technical point of view – what you have to know

9h30- 11h00: Living persons - Bone age estimation (from old to new techniques)

11h00-11h30: Coffee break

11h30 – 13h00: Dry bones:

Sex determination: classical metrical, scopic, and morphometrics

Age at death estimation (bone)

Examples of radiological use for some particular French mummies

13h00-14h00: Lunch (included for registered attendees)

Speaker : Prof. Niels LYNNERUP, PhD, Forensic Anthropologist University of Copenhagen
Danemark

14h00-15h30:

CT image analyses in forensic anthropology (image segmentation, 3D visualizations).

Bone ageing methods via CT

15h30-16-00: coffee break

16h00-17h30:

Age estimation in the living : role of MRI

3D photogrammetry of crime scene, measuring perpetrators

Combining crime scene photogrammetry with whole body CT: future aspects

Speaker : Dr. Laurent MARTRILLE, MD, Forensic Pathologist, University Hospital of Nancy, France (with F REMY, G HOSSU, R CENDRE, E. MICARD, L MAINARD SIMARD , J FEBLINGER, L LALYS)

17h30-18h00: Development of a biometric method on hand bone radiographs to estimate age: preliminary results

18h00-19h00: Social program: Free exclusive private guided tour of the "conservatory of anatomy" in the western world's oldest medical school still in use. Exceptional with its nearly 5600 objects of inestimable importance!

Association de Médecine Légale
et Toxicologie Clinique de Montpellier

Friday sept 4th 2015

Speaker : Dr. Laurent MARTRILLE, MD, Forensic Pathologist, University Hospital of Nancy, France and Dr Marie Luce MONTTOUX, DDS, University Hospital of Montpellier

08h30 : 10h00: Age estimation in the living : practical aspects (reports of cases with medical examination and imaging).

Speaker : Prof. Catherine CYTEVAL, MD, PhD, Radiology Department University Hospital of Montpellier, France

10h00- 11h00 : Imaging of trauma.

11h00-11h30: Coffee break

Speaker : Dr. Samuel MERIGEAUD, MD, Radiologist, Montpellier, France

11h30-12h30 : Paleoradiology and anthropology of mummies: cases from the Museum of Anatomy of Montpellier (in collaboration with the Musée du Louvre and other french museums)

Speaker : Dr. Laurent MARTRILLE, MD, Forensic Pathologist, University Hospital of Nancy, France

12h30 13h00 : Trauma cases and imaging

13h00-14h00: Lunch (included for registered attendees)

Speaker: Dr. Danilo De ANGELIS, DDS, PhD, Dentist, Laboratorio di Antropologia e Odontologia Forense Sezione di Medicina Legale, LABANOF, Università degli Studi, Milano, Italy.

14h00-15h30: morphological identification and aging in anthropology and odontology via 2D and 3D imaging + practical cases .

15h30-16-00: coffee break

Speaker : Prof. Pascal ADALIAN, PhD, Forensic Anthropologist, University of Marseille, France

16-00-17h30 : Imaging and anthropology of fetuses

Organizing and scientific committee:

Prof. Eric Baccino, MD, Forensic Medicine, University Hospital of Montpellier, France

Dr. Philippe Cathala, PharmD, MD, Forensic Medicine, University Hospital of Montpellier, France

Prof. Eugénia Cunha, PhD, University of Coimbra, Portugal FASE President

17h30: Closing Remarks
